

Precision Mold Replacement Intake Form

Capture the evidence required to evaluate a replacement component. No material, hardness, fit or interchangeability claim is implied by this blank form.

Tool / mold ID	Component ID
Drawing revision	Requester
Cavity / position	Required date

Interface and condition

Evidence item	Reference / photo ID	Observed condition	Action needed

Attach controlled drawings, mating-interface photos and damage notes where available.

Approval and release

Material / treatment reference	Fit verification	Approval / date

Any substitution or dimensional change requires the designated engineering authority.
